Various Organizations Offer Money for Work of the Red Cross Society.

WASHINGTON, D. C., April 30-Whether we are to have peace or war it is as yet impossible to tell, but one things is sure, we can "Lay the flattering unction to our souls, that Americans are patriots all-

The United Fruit Company has of-fered the president its wireless sta-tions at New Orleans, and at Swan Island, in the Carribean, and at arious other places in South America.
The Aero Club, of Illinois, has tendered to the government a round dozen of expensive aeroplanes be-longing to the club for the hazardous use of the army. The recruiting of-fices are one and all besieged with enthusiastic crowds of eager applicants seeking to enlist to help in up-holding the honor of Old Glory. Secretary Garrison states here are even more men desirous of enlisting than when the whol

country was stirred with resentment against Spain, when every hear thrilled with the patriotic slogan: "Remember the Maine!"

Women, Too, in Line.

The women's organizations almost without except on have taken

steps to help in the work to be done.

the Red Cross has met with gratifying response and generous donations are beginning to flow in. The National Woman's Christian Temperance Union has the honor of heading the list of the early subscribers, and the list of the early subscribers, and the "Daughters of the Founders and Patriots of America" have come forward with an offer of all the money in the treasury—several hunired dollars. The Mothers' Congress and the Daughters of the American Revelution and many other organizaolution and many other organiza-tions have all tendered not only money but offered their personal

Men, young in years, but whose hearts still tingle with the undying heroism of their sires the heroes who wore the blue, the heroes who wore the gray, men who heroes who were the gray, men was need only an opportunity, to prove to Mexico and the world, they are true sons of their fathers. They are sons and grandsons of Grant, Sher-idan and Howard; of Fitzhugh Lee, "Stonewall" Jackson and James

The blooished in Mexico and the extras lesued every few hours have almost driven all thought of the coming nuptials at the executive mansion out of our minds. It is known positively now that it is to be a small private family affair, and it is whispered that it is to take place in the Blue Room with only the relatives of the two contracting

> Woman Suffrage Council. The capital is only a poor little disenfranchsed 'Dstrict' but it sets even the larger states a praiseworthy example of suffrage activity. The new council is organized for the express purpose of assisting the National Association, and being of help to Mrs. Medill McCormick and the other officers of the National Congressional Committee in their stren-uous, but splendidly successful labor of "educating Congress." How wonderfully efficacious Mrs. McCormick's work here, has been, is shown by the healway the new Shafrota amendment has aiready made. Mrs. Antoinette Funk, the able lawyer, her-self a member of the committee, reports that there is a most encour-aging outlook for the new amend-ment which meets with little or no opposition from senators and members who have firmly refused to con-sider the original Bristow-Mondeli bill, on account of the question of states' rights.

The date crop in Mesopotamia for 1912 is reported as having been abundant and sold at good prices. It is estimated that the London market took about 550,000 cases and America 450,000.
